

paf now

n-times better.

With PAFnow things are simply going better.

With PAFnow businesses can learn from the treasure of past data to improve their processes here and now and successfully position themselves for the digital future.

With the Artificial Process Intelligence solution, you can analyze your processes in detail, receive targeted insights and improve your business processes through continuous monitoring. These steps can be applied to your process data as often as you like, guaranteeing you a steady improvement of your business processes.

Experience Artificial Process Intelligence with PAFnow!

Artificial Process Intelligence is a technology which combines Artificial Intelligence with Process Mining methods. Process Mining is a process management technique in which existing process data is visualized and analyzed to provide a fact-based basis for process analysis. With PAFnow, you have a innovative solution at hand to face the challenges of digitalization confidently.

Use your advantages with PAFnow today and start directly!

- ✓ **Artificial Process Intelligence:**
various functions for targeted analyzes and actions
- ✓ **Content:**
predefined models for special industries, applications and processes
- ✓ **Integration:**
Easy embedded in Microsoft Power BI and the Application Platform
- ✓ **Pricing & Licensing:**
Attractive subscription-based model with Smart Start Packages!

Improve your business processes with PAFnow directly from your workplace!

Using our PAFnow Custom Visuals we have integrated our software into Microsoft Power BI to complement your analytical platform with new features. As a Microsoft Power BI and O365 user, you can quickly and easily extend your existing infrastructure with state-of-the-art PAF process mining software to make your operational business processes better. With PAFnow, you are using an attractive solution every day that turns your workplace into an **efficiency workshop** through a variety of interfaces to popular Microsoft Office applications.

DO YOU WANT TO TAKE YOUR COMPANY TO THE NEXT LEVEL? IT'S REALLY EASY!

ANALYSIS: COMPLETE TRANSPARENCY

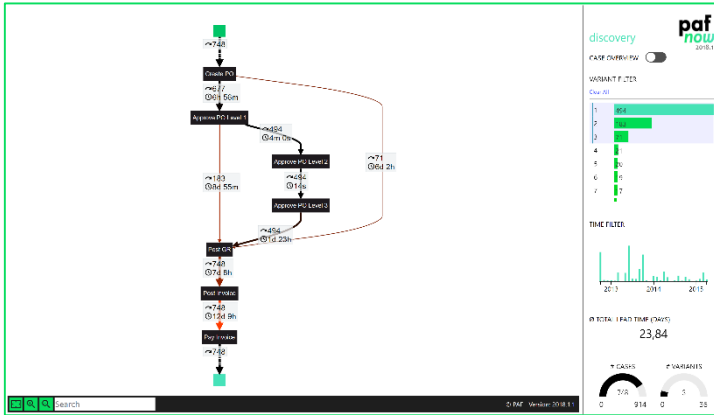

Figure: PAFnow Discovery

INSIGHTS: TARGETED OPTIMIZATION

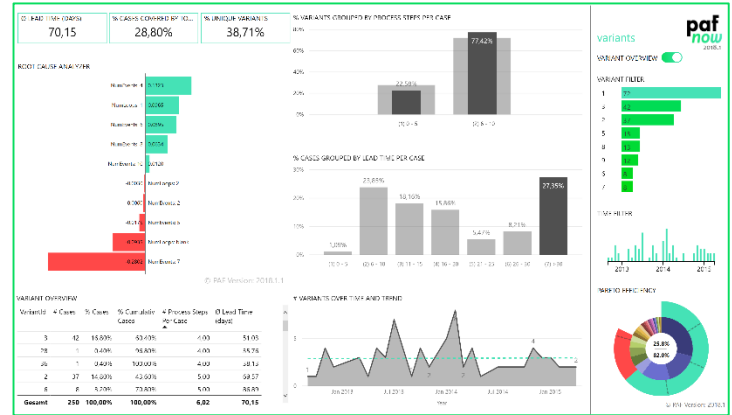

Figure: PAFnow Variants Analysis

Why PAF?

Darmstadt-based Process Analytics Factory GmbH is global provider of artificial process intelligence with its PAFnow software. PAF enables companies to take advantage of their wealth of data to improve their processes here and now to successfully position themselves for the digital future.

With **PAFnext** PAF promotes the research and development of innovative technologies in the areas of process mining, artificial intelligence and robotic process automation. The results are incorporated into PAF's software solutions and are made available to the **PAFnetwork** - a rapidly growing community of partners and customers with a passion for Artificial Process Intelligence.
